Do you love pizza and love to bake it at home? Do you like to cook it for dinner with family or friends? It often happens that you have to wait before eating because the standard pizza oven only allows you to cook one pizza at a time.

The "**Pizzeria Ariete**" **Double Pizza Oven is the ideal solution**. You will be able to cook 2 pizzas at the same time: 2 separate zones, an upper one and a lower one, with 2 independent thermostats to manage cooking separately.

In both cooking zones, the 32 cm refractory stones are equipped with a **transparent non-stick treatment** that makes cleaning the stone better as residues and oil are removed more easily. The pizza oven allows you to cook and / or heat pizza and focaccia at 5 cooking levels, up to a maximum temperature of 400 degrees.

Fast cooking at high temperature allows you to replicate the same method of wood-fired ovens and in just 4 minutes you get a perfect cooking for **homemade pizza**, and 2 minutes for frozen pizza. Enjoying pizza at home has never been so quick and easy. Seeing is believing!
