

ECOWE 2001

Model: 2001/00

Code: 00C200100AR0

EAN: 8003705119123

Separate collection, unpleasant smells, large quantities of waste after dinners with friends or family. Ecowe solves these problems. **Organic waste dryer and intelligent waste bin**, EcoWe dries and reduces the volume of organic waste. As?

Pour organic waste into the upper basket of the bin. Once filled, activate the **drying cycle**: you can choose between 9 or 15 hours based on the quantity and type of food. The choice is made by pressing the finger: by holding down the ON/OFF button for 3 seconds, the 15-hour cycle is chosen, otherwise with a simple click, the 9-hour cycle is chosen.

Thanks to the activated [carbon filter mod. 4081](#), which retains odors and impurities, you will never have to worry about bad smells again. The drying cycle will **reduce the volume of waste** to optimize space and **eliminate bad odours**, humidity and bacteria. All this in an extremely silent way: you sleep, she works.

At the end of drying, lift the upper basket: the dried food will automatically move to the lower container with bag. In this way **you will not have any contact with organic waste** and Ecowe will be immediately ready to collect further waste.

Your Ecowe won't even look like a waste bin: thanks to its elegant, modern and compact design it will fit flawlessly into your kitchen.

Product specifications

Power	60W/h
Fan motor	10W
2 drying cycles	9 hours and 15 hours
On/Off and Pause button	✓
Anti-odour seal on the opening	✓
Pressure lid and opening with hinge brake	✓
