

AIR FRYER 9L

Model: 4631/00
Code: 00C463100AR0
EAN: 8003705122703

With the **double air fryer 9L** you can fry any dish you want in large quantities by using only a tablespoon of oil to obtain healthy and tasty fried dishes. Thanks to the **2 baskets of 4.5L each**, with Ariete Double air fryer 9L you will be able to cook up to 3.6 kg of fries at once! Fries, but not just that, also croquettes, fish, meat and so much other breaded food, whether frozen and ready to fry or fresh and recently breaded, thanks to the **11 preset programs**.

How does the air fryer work?

The air fryer cooks thanks tohigh temperature air, of **up to 200°C**, which circulates at maximum velocity and at 360° inside the cooking chamber and grants a uniform distribution of heat in its interior. It is the hot air that allows an homogeneous cooking of the dishes and the presence of a crispy crust, which is just as good as traditional frying. Thanks to the hot air, it won’t be necessary to add so much oil to obtain tasty fried food, because just a tablespoon will suffice; this way you will bring to the table lighter dishes, but tasty for the whole family.

From the large touch screen panel you can adjust cooking times, programs, temperature and timer also separately for each basket. Double Air fryer 9L offers the **Grill function and Max Crisp** for crispier food, **Sync function** for synchronising the end of the cooking of the food at different times, Dual Cook function to double the quantities, and Drying function.

Double air fryer 9L is easy to clean thanks to the non-stick baskets with grill.
