

AIR FRYER + GRILL PIZZA OVEN

Model: 4649/00

Code: 00C464900ARO

EAN: 8003705126367

Bring the **perfect crunch of air frying and the authentic taste of pizza** straight to your table with the **Air Fryer + Grill Pizza Oven**. This 2-in-1 multi-functional appliance is designed to **fry, dehydrate, roast, grill, and bake** just like a traditional oven, but with unprecedented speed and energy efficiency.

If you're looking for a **fast alternative to a traditional oven** that doesn't compromise on the quality of your meals, you've finally found your perfect kitchen ally. **Unlike classic air fryers**, the Air Fryer + Pizza Oven can hold a **whole fresh or frozen pizza up to 30 cm in diameter**. Thanks to its impressive **2000W** power, **dual heating elements**, and temperatures reaching **230°C**, you can enjoy a perfectly crisp pizza in no time, **ready in just 8 to 11 minutes**.

The secret to its performance lies in the **large 10-liter Extra-Wide basket**. With its wide, flat **30x30x10 cm** design, it easily holds large quantities of food. This means you can forget about the annoying task of constantly shaking your fries or chicken; the air circulates freely and optimally, ensuring a **perfectly even result**. Cooking efficiency is further enhanced by **dual heating elements**, both top and bottom, which optimize hot air flow to deliver **exceptionally crispy-on-the-outside, juicy-on-the-inside** results, staying true to the "Extra Crisp" promise.

Managing every recipe is incredibly simple and intuitive thanks to the digital touch interface with colour icons. It allows you to select from **8 pre-set programs**, including specific cycles for **Pizza** and **Grill**, as well as the highly useful Dehydrate function (50-100°C), ideal for creating healthy homemade snacks by removing moisture while preserving essential vitamins and minerals.

Finally, to keep your cooking perfectly under control without heat loss, the design features a large, **transparent front window** and an **internal light**. This allows you to monitor your food at any moment without ever opening the basket, trapping all the heat inside for maximum energy savings and quality.

Product specifications

Power	2000W
Capacity	10L
Basket dimensions	30x30x10cm
Panel	Digital Touch Screen
8 cooking programs	including Pizza, Grill, and Dehydrate
Timer	adjustable up to 60 minutes
