

## AQUA FORCE WASH & VACUUM

**Model:** 2483/00

**Code:** 00P248300AR0

**EAN:** 8003705124363

It's not just a cordless vacuum and floor cleaner: **Aqua Force Wash & Vacuum** is the perfect everyday cleaning ally to take care of your house. Aqua Force Wash & Vacuum simultaneously **vacuums and cleans** dry and wet dirt on all hard floors: tile, parquet, marble, laminate, terracotta. Thanks to the powerful **suction force** and **integrated technology**, surfaces will be dry within minutes after each pass, with **no streaks** or residual moisture.

It is possible to choose between 3 modes:

1. **ECO with water:** for daily cleaning, providing an autonomy of about 35 minutes;
2. **MAX with water:** for the most stubborn dirt and provides an autonomy of 25 minutes;
3. **Suction only:** for quick needs.

Aqua Force Wash & Vacuum features a **self-propulsion system** that allows it to glide across the floor, and, thanks to its cordless design, cleaning becomes smoother and less tiring.

Aqua Force Wash & Vacuum has two separate tanks: one for clean water (700 ml), where a **specific detergent** can be added, and one for dirty water (500 ml). It also features an integrated HEPA filter. With 2 water indicators on the **digital display**, Aqua Force Wash & Vacuum will alert you if clean water is missing or if the dirty water tank is full and needs to be emptied. The user-friendly digital display indicates suction mode, battery life, water indicator, self-cleaning, tangled roller, and spin drying. The **brush**, designed specifically for edge cleaning, stays clean, sanitized, and ready to use at all times thanks to the roller's self-cleaning system and centrifugal function.

It will become your cleaning ally, and you won't be able to live without it!

#### Product specifications

Functions	vacuums and cleans
