

# MYSLUSH & ICECREAM

**Model:** 0655/00
**Code:** 00C065500AR0
**EAN:** 8003705126084

With the MySlush & IceCream machine, the slush and ice cream maker, you don’t need to be an experienced bartender or a master ice cream maker to achieve professional results. Thanks to an intuitive design and advanced technology, you can serve frozen drinks and creamy desserts that will amaze your guests.

Why is it the perfect ally for your breaks?

1. **A world of flavors with 6 automatic programs**. Don’t settle for basic slush. The wide variety of programs lets you choose how to enjoy your time every day. With just a simple touch, you can prepare:

- Classic refreshing slushes made with juices or soft drinks
- Slush cocktails for your evening aperitifs: alcoholic cocktails in slush form
- Creamy homemade ice cream made with your favorite ingredients.
- Delicious milkshakes.
- Quick and tasty smoothies.
- Cold juices for a fresh, vitamin-rich break in just 6 minutes

2. **Advanced cooling technology (no ice required!)**. The secret to a perfect texture lies at the heart of the machine. Equipped with a silent compressor and a cooling cylinder, the Slush Maker freezes liquids without the need for ice, delivering perfectly smooth slushes and ice cream in just a few minutes. The liquid circulates around a cooling cylinder, gradually freezing to maintain an ideal texture without ever solidifying completely.

3. **Speed and ease of use**. Time is precious. Thanks to the color digital touch display, every operation becomes simple and intuitive. Preparation time ranges from 30 to 60 minutes, making each preparation extremely fast.

4. **Large capacity for sharing flavor**. Have guests for dinner? No problem. The large 2.6L tank capacity lets you serve drinks to your friends as well:

- Maximum slush capacity: **1.6L**.
- Maximum ice cream capacity: **1.3L**.

MySlush & IceCream has details that make the difference, like the **self-serve dispenser** with a drip-proof spout that lets you serve only the amount you need, without wasting anything, the **removable tank** for thorough cleaning, and the **automatic cleaning function** that can be activated after each cycle to keep the appliance always efficient.
