

JUICER BREAKFAST WOOD

Model: 0417/07

Code: 00C041707AR0

EAN: 8003705126145

Essential, compact, and designed according to the principles of contemporary minimalism. With the **Juicer Breakfast Wood**, you can prepare **your fresh fruit juices and natural ingredients** every day in just a few minutes, adding an authentic design piece with clean and soft lines to your kitchen.

The solid body with matt shades and the glossy bowl blend perfectly with the base, which is enhanced by feet and grain detailing in a wood-effect finish. This highly realistic, technical texture elevates the appliance's shapes, adding lightness and a unique natural appeal. The product features **2 removable and interchangeable juicing cones**, easily activated by pressing the fruit down on the cone.

Order on the counter top is guaranteed by the **top dust cover**, the built-in **cord storage device in the base**, and the spout with an open/close function, making it a perfect anti-drip system. The perfect combination of efficiency and aesthetic harmony.
