

PIZZA OVEN WITH VIEWING WINDOW

Model: 0928/00
Code: 00C092800ARAS
EAN: 8003705122079

The Ariete **Pizza Oven** with viewing window is the ultimate kitchen ally for every true pizza lover, designed to offer maximum control. Thanks to the **32 cm refractory stone**, you can bake or reheat pizzas and focaccias, replicating traditional wood-fired oven methods with **5 temperature levels reaching up to 400°C**.

The real game-changer is the top viewing window: you can follow every second of the baking process without ever opening the lid. This ensures two vital benefits:

- **Flawless Cooking**: By keeping the heat trapped inside, you guarantee uniform browning and a crispy crust while saving energy.
- **Total Control**: A quick glance is all you need to know if your pizza is ready, eliminating the risk of burning or undercooking.

In just **4 minutes for fresh homemade pizza** and 2 minutes for frozen, you'll achieve professional results. Plus, cleanup is effortless: the refractory stone features a transparent non-stick treatment that makes removing oil and residue incredibly simple.

With the Ariete Pizza Oven, making pizza has never been so fast, easy, and—above all—under your total control.

Product specifications
